ABOUT ME

Passionate final-year MCA student with decent skills in NodeJS ,ReactJS , MYSQL, and web development. Experienced in developing robust web applications and managing databases. A quick learner with excellent problem-solving abilities and a collaborative mindset, seeking an internship to contribute to impactful real-world projects while gaining hands-on industry experience.

PROJECTS

Portfolio Website

Designed and deployed a personal portfolio using React and Tailwind CSS. The site includes a responsive design, Light/Dark mode toggle, and is hosted on Vercel to showcase skills and projects.

Myntra Clone using Real Backend Technology

Built a full-stack clone of the Myntra website using React for the frontend and Node.js for backend functionalities. Implemented product listing, dynamic routing, and user interface similar to the real platform.

Todo-App

Developed an interactive Todo application using React with concepts like state management and component-based architecture. Focused on clean UI and functionality using JavaScript.
